PORT COMMISSIONERS:

Toby Goddard Dennis Smith Reed Geisreiter Stephen Reed Darren Gertler

TO: Port Commission

FROM: Holland MacLaurie, Port Director

DATE: April 15, 2023

SUBJECT: Public Hearing to Receive Input from the Community Regarding the Creation of a

Port Commission District-Based Electoral System Pursuant to Elections Code

§10010

## Recommendation:

- 1. Conduct a Public Hearing to review public testimony on the composition of districts for a district-based electoral system pursuant to Elections Code § 10010;
- 2. Provide direction to the Port District's demographer regarding the composition of districts for a district-based electoral system pursuant to Elections Code § 10010.

## **BACKGROUND**

On August 10, 2021, the Port Commission adopted Resolution 21-03 declaring its intent to transition from at-large to district-based elections for its Port Commissioners commencing with the General Election in November 2024. Elections code Section 10010 provides that the Port District conducts four public hearings to receive community feedback on the proposed composition of the five districts.

Since adoption of the Resolution of Intent, the Port District has been engaged in outreach efforts to inform the public about district elections and the process associated with their formation. A webpage (<a href="www.santacruzharbor.org/transition-to-district-based-elections/">www.santacruzharbor.org/transition-to-district-based-elections/</a>) was developed to provide information about district elections including opportunities for when and how the public can be engaged, the official notice of Public Hearings was translated (English/Spanish), and an article was placed in the Santa Cruz Harbor February and March monthly newsletters.

On March 28, 2023, the Port Commission conducted the second of four Public Hearings. Input regarding the composition of District boundaries is summarized in Attachment A.

## **ANALYSIS**

Based on public input, Commission direction, and other legally required criteria, the District's demographer submitted four proposed draft maps for public review and comment (Attachment B). The draft maps were posted to the District's website on April 13, 2023.

It is recommended that the Port Commission review the draft maps and discuss any proposed modifications. Any modifications to the boundary maps will be republished for public review at least seven days before final consideration.

## **NEXT STEPS:**

On May 23, 2023, the Port Commission will conduct a fourth Public Hearing to adopt a preferred district map and introduce an ordinance to transition to a district-based electoral system. The ordinance will take effect 30 days after its adoption and will govern the 2024 General Election.

## **IMPACT ON PORT DISTRICT RESOURCES**

There will be significant staff time needed to transition to a district-based electoral system due to the need to conduct multiple Public Hearings, in addition to the cost for a demographic consultant. The FY24 budget includes the costs associated with transitioning to by-district voting.

## Community Input

- □ If possible, have each division touch the Harbor
- □ If not possible, have each division touch either the Harbor or the Ocean

- □ Starting point maps many changes can be made prior to final adoption
- □ Drawn to illustrate a range of options
- Each map illustrates a different way of balancing the "traditional redistricting principles"
- Residents and the Board can suggest preferred ways to 'mix and match' the elements of the different maps
- □ More detailed view available in the interactive review map.

Highly compact.

Divisions 3, 4 and 5 touch the Harbor.

- Divisions 1 and 2 touch the Ocean.
- Borders follow easily-recognizable rivers (and, secondarily, major roads) as much as possible.

2024: 1 (Smith), 2 (Gertler), 3 (Reed) 2026: 4 (Geisreiter), 5 (Goddard)

2024: 1 (Smith), 2 (Gertler), 3 (Reed) 2026: 4 (Geisreiter), 5 (Goddard)

## Hearing & Discussion

- □ What do you like and dislike about each map?
- □ Which maps do you prefer?
- □ How can the preferred maps be improved?
- ☐ This could be a mix and match approach

## Next Steps
