

PILE REPAIR & REPLACEMENT PROJECT - PHASE I **Project Update**

Crews from Bellingham Marine are finishing up work in the south harbor and will begin mobilizing equipment to the north harbor within the coming days. As part of the mobilization process, Bellingham will be performing crane work on Tuesday, July 31, 2018, in the parking lot near E and F Docks on the harbor's west side.

Parking in the area between E and FF Docks will be significantly impacted between 9 AM and 7 PM. Harbor staff will be on site to manage traffic flow and assist slip renters and visitors with parking.

We understand that this is an inconvenience to boaters during the busy summer months, but appreciate your patience while the work is being performed.

If you have any questions or concerns related to the project please contact Senior Deputy Harbormaster Blake Anderson at (831) 475-6161 or banderson@santacruzharbor.org.

Santa Cruz Port District, 135 5th Avenue, Santa Cruz, CA 95062
