

WARNING

TSUNAMI ADVISORY IS IN EFFECT

A bulletin has been issued by the National Tsunami Warning Center.
A Tsunami Advisory is in effect for the California coast due to a volcanic eruption in the Tonga Islands.

Tsunami activity is forecasted to impact our area at approximately 7:30 AM, and we anticipate that it will be dangerous dockside and aboard your vessel.

We are not recommending people come to the harbor, but monitor the situation and notify 911 if you know of someone in the immediate harbor area who may be in danger. For public safety purposes, access to the docks will be restricted.

The harbor patrol is actively watching docks, monitoring activity, securing lines, and contacting known liveaboards.

If you are aboard your vessel, it is recommended you vacate your vessel and seek higher ground.

The National Tsunami Warning Center website is **www.tsunami.gov**.
